ACCESS - Bytemobile Strategic Alliances

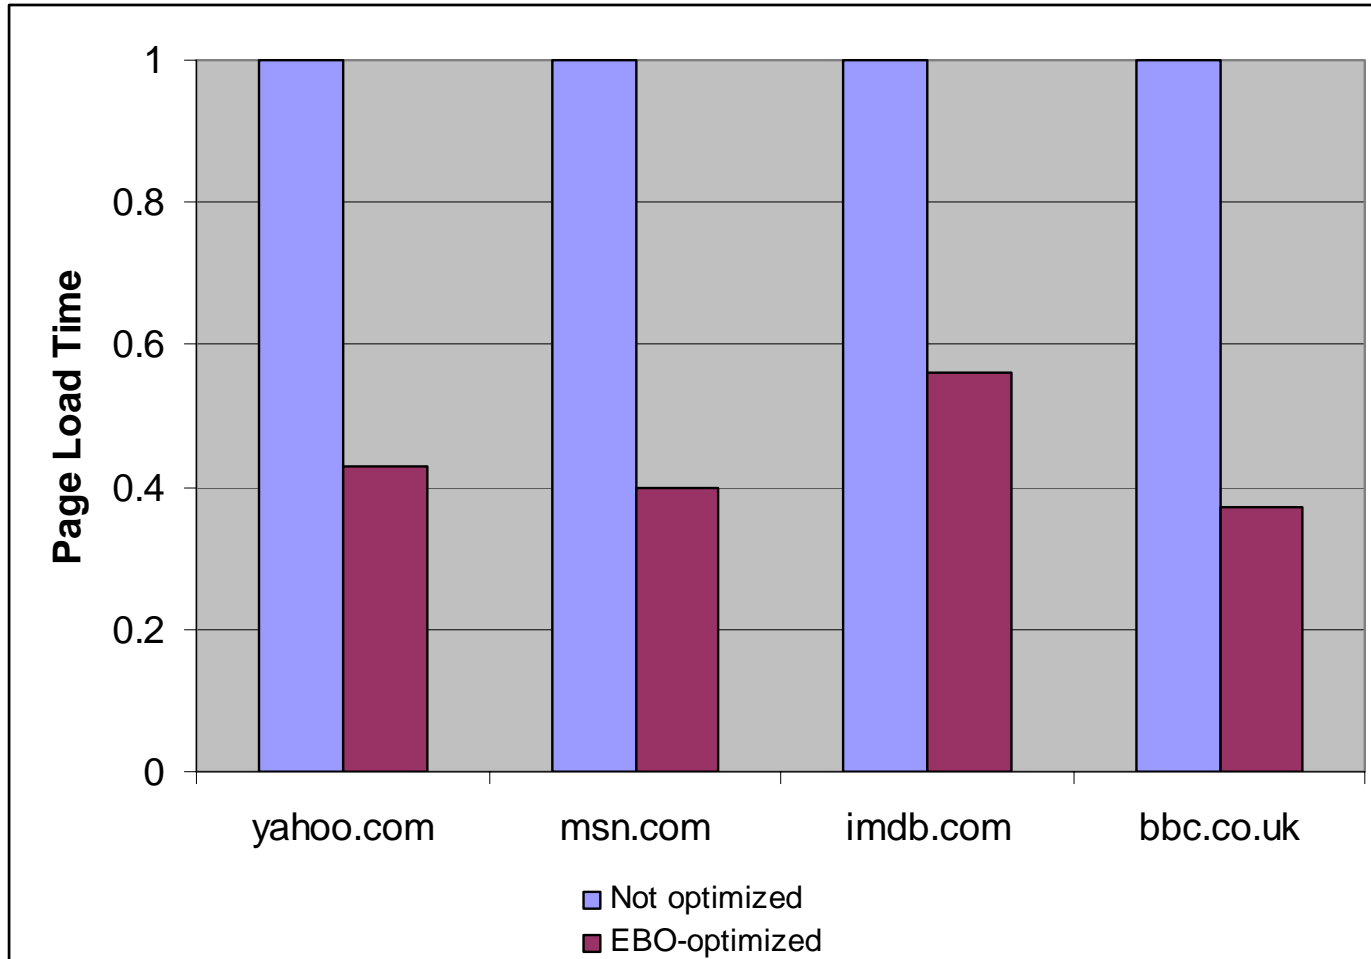

- Will combine ACCESS' Browser with Transmission data compression technologies of Bytemobile (as launched/implemented through their communication data card) for operators. Through these technologies, operators can reduce data traffic which has been increasing by Full Internet service from mobile handsets
- Will provision to Willcom as a first customer (announced on August 27, 2007)
- Promote Global Initiatives by both companies

ACCESS - Bytemobile Strategic Alliances (cont'd)

- Users can feel the browsing process almost 4 times faster

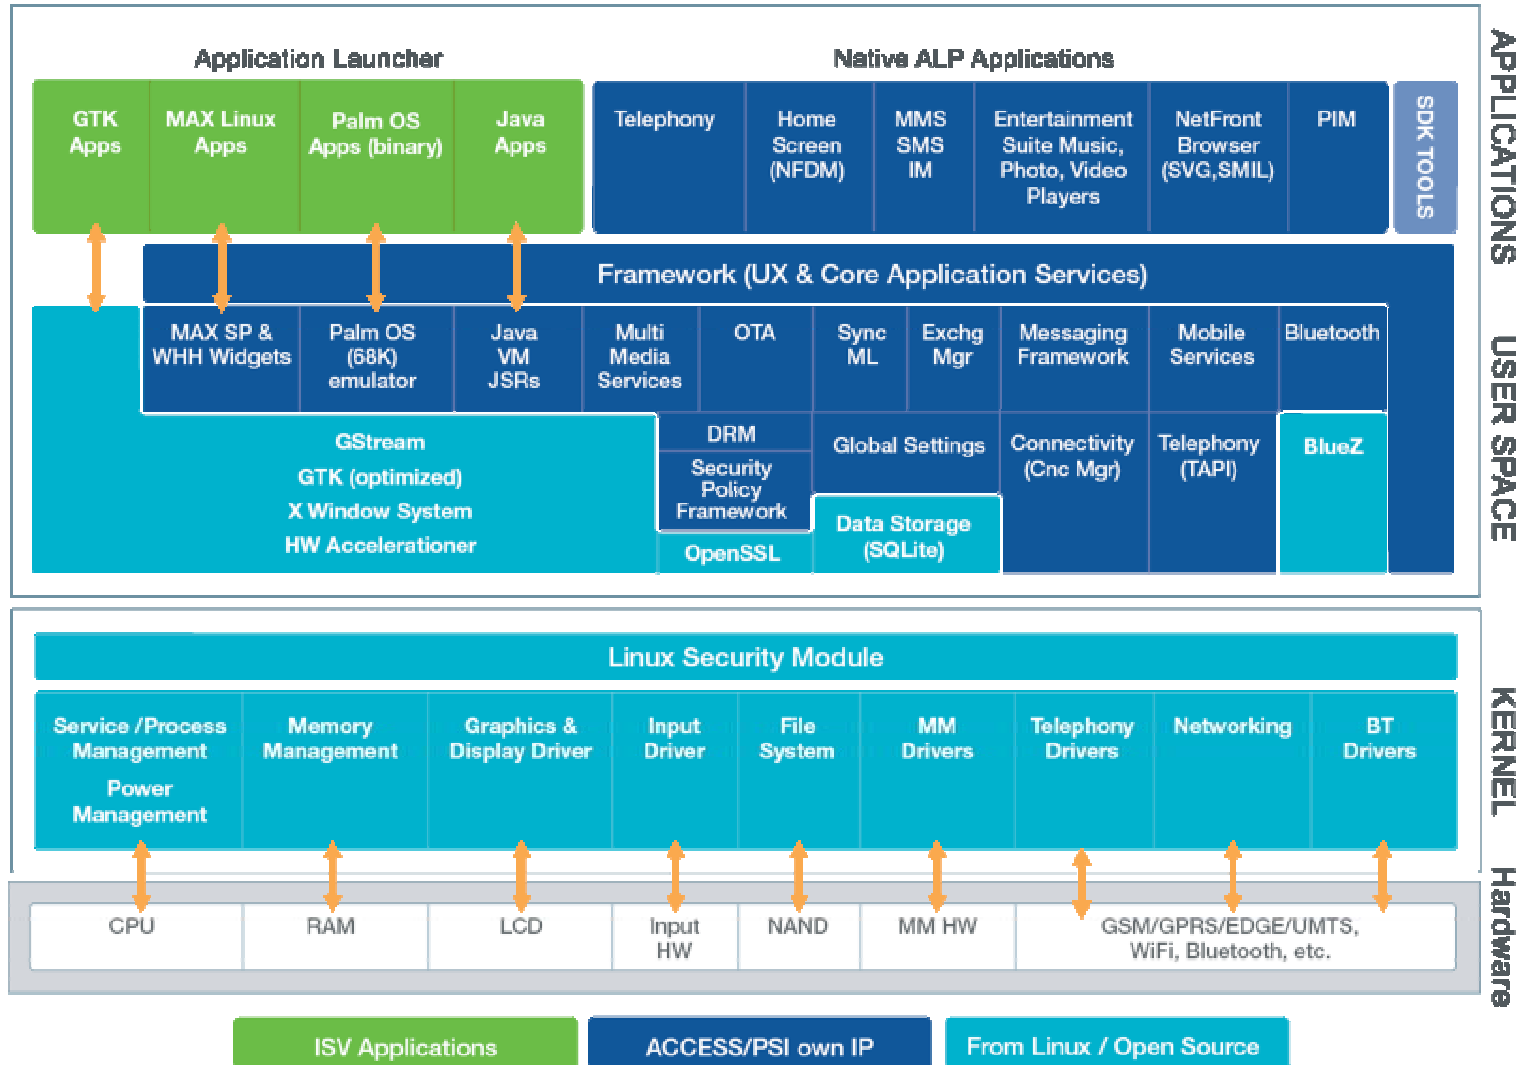

ALP (ACCESS Linux Platform) Related Update

- Completed Orange Application Package for ALP
- Partner with Marvell for ALP Turnkey reference
- Exhibited at Linux World San Francisco and organized ACCESS Developer Day
- Member companies at ACCESS' Partner Program (ACE) will be increased to 65

ALP – Advanced Architecture

ALP – Turn Key Solution

Native Applications

• All native ACCESS proprietary applications support inter-application communications for data interchange

- Phone
- Contacts
- Calendar
- Memo
- Tasks
- HotSync®
- NetFront™ Browser
- HandMail™
- SMS+
- iMessenger™
- Music
- Video
- Photos & Studio
- Camera
- Document Viewer (available 2Q2007)
- Utilities

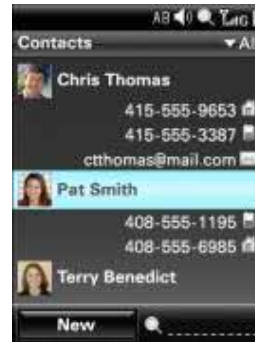

(Clock, Calculator, Recorder, Home Screen, Flight Mode)

Networking and Communications

• Includes a modern and robust connection manager capable of handling multiple, simultaneous connections

- TCP/IP
- WiFi (802.11g)
- Bluetooth® 2.0 + EDR
- USB
- IrDA
- Serial

Music Player

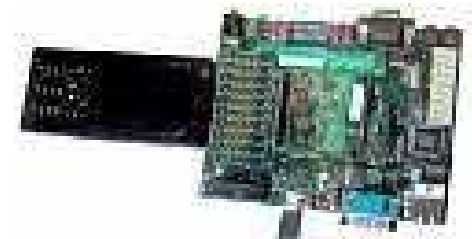

Photos

- Support Finger touch function
- Provide ALP PDK (Program Development Kit)
- Provide ALP SDK (Application Development Kit)

- Enhance alliance with chip vendors
 - Strategic Partnership with Marvell
 - Provide ALP Evaluation Kit for Marvell CPU PXA30x/PXA31x
 - Handset vendors can productize in a short period through this turnkey solution
 - Seek for similar alliance with other chip vendors

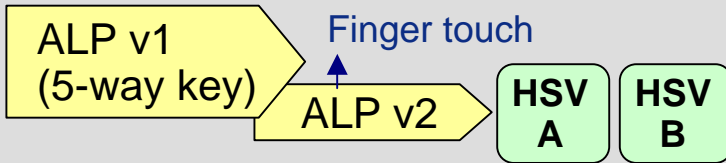

ALP – Roadmap

2006 | 2007 | 2008 | 2009 | 2010

ACCESS
ROADMAP

By Operator

Major Operators ...

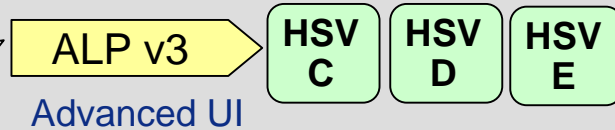

- Accommodate operator requirements
- Partner with chip vendors (1-chip)
- Support 3rd-Party application vendors
- Expand coverage in scalable manner
- Adopt to other Information Home Alliances

Operator Project #1 (advanced development with Operator)

Operator Project #2

Advance ALP platform and develop advanced UI Application

Major Operators

General Market

In Progress

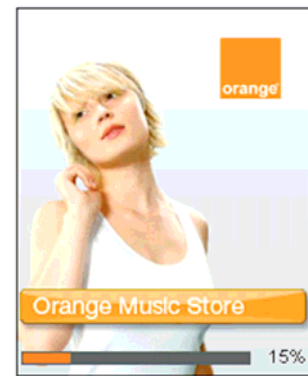

“Seamless Navigation”

SHIPPING
DATE
(Expected)

- Orange selected ALP as their Linux Platform
 - Announced on August 14, 2006
 - ACCESS and Orange will co-develop Orange Application Package

- Orange Application Package is now completed

- Home Screen
- Orange TV
- Orange Music Service
- Others

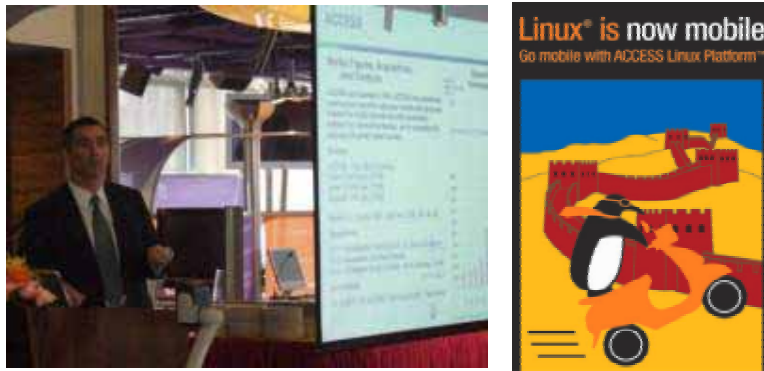

ACCESS will provide a set of ALP & Orange Application Package to Handset Vendors

***“We will focus on three platforms:
Microsoft, Symbian and Linux”***
Yves Maitre, VP devices

Provided Training for Orange Application Partners (Florida and Beijing)

Orange Labs and Orange Partner event
The Innovation Gardens, Orange Labs, Beijing
Monday 4th and Tuesday 5th June 2007

partner camp
Cape Canaveral, U.S.
16-18 April 2007

Linux World San Francisco (Aug 6th – 9th)

Total Attendees: 11,000
(+15% from 2006)

Join us for ACCESS Developer Day
at LinuxWorld August 7th, Moscone Centre

- ACCESS was exclusive Mobile Linux Track sponsor

- Orange and ACCESS delivered opening presentation:

”Developing Mobile Linux Applications and Taking Them To Market”

Didier Diaz,
SVP of Product Marketing, ACCESS

Steve Glagow,
Head of Orange Partner, Orange

○ Full day ALP Developer Training

- Offered 5 sessions
 - ALP Architectural Overview
 - Garnet VM Compatibility
 - ALP Development Suite: Tools & Techniques
 - Orange Compatibility
 - Building Native Applications for ALP

Tuesday, September 18th

○ *Opening Keynote – 9:00AM*

Dr. Tomihisa Kamada, Co-Founder, CTO ACCESS CO. LTD

“Mobile Linux in the Era of Convergence”

○ *Technical Presentation – 12:00PM*

Didier Diaz, SVP, Product Marketing, ACCESS USA

“Meeting the Mobile Challenge With the Hiker Framework”

○ *Interactive Panel – 3:45PM*
